

If, during a current game, it's discovered that an illegal player is participating in a game, the team found guilty of the infraction will instantly "forfeit" the game (if both teams are simultaneously guilty of this infraction, it will result in a "double forfeit") In addition, the manager of the guilty team(s) will be suspended for one (the next) game, unless the "forfeit" results in the team(s) being eliminated from the tournament. *Please note that all the above will still apply even if discovered after the game(s) is completed.

(Reminder: players may only participate in postseason tournament if they are listed on team's official roster AND they have played in the required minimum of three [3] regular season games)
